

Error: AVArray: index 0 not in range 0..-1.

Posted by kirui4020 - 2007/11/19 12:43

Thank you for the information on solving the previous error. I manage to write the weighted table succefully. Although when I tried to simulate, I got an error message. The error message was Error: AVArray: Index 0 not in range 0..-1.

The status

writing the SWAT output files.

The input data

Delineated watershed

weighthd precipitation file

Have you had any luck resolving this issue? What is the title of the message box that the error appears in?
